Index

Vasudevan Lakshminarayanan received his Ph.D. degree from the University of California at Berkeley and is currently a professor of vision science, physics, and electrical and computer engineering at the University of Waterloo, Ontario, Canada. He has held visiting and faculty appointments at the Universities of California at Berkeley and at Irvine, University of Missouri, the University of Michigan, Glasgow Caledonian University, Ryerson University, and the Indian Institute of Technology, Delhi. He is a Fellow of OSA, SPIE, AAAS, APS, and IoP, and is a senior member of IEEE. He has received a number of awards including, most recently, the Esther Hoffman Beller medal of OSA (2013) and the Optics Educator award of SPIE (2011). He has been a KITP Scholar at the Kavli Institute of Theoretical Physics at the University of California at Santa Barbara. He was an AAAS science and technology policy fellow finalist and serves on the optics advisory board of the Abdus Salam International Center for Theoretical Physics in Trieste, Italy. He is a founding member of the UNESCO ALOP program. He also served as member at large of the US IUPAP committee of the NAS, the Chair of the US International Commission on Optics committee, Chair of the APS Committee on International Scientific Affairs, a member of the international steering committee of the International Year of Light 2015, a member of the education committee of the National Photonics Initiative, and has served as a director of OSA. He is a consultant to the ophthalmic and medical devices section of the FDA (from 2013). He is technical editor or section editor of a number of journals including *Journal of Modern Optics* (from 2003) and *Optics Letters* (from 2010). He is currently the Chair of the education committee of SPIE (2015–2017). He has authored or edited about 12 books and more than 300 publications in topics ranging from optical physics and engineering to neuroscience, bioengineering, applied math, and ophthalmology/optometry.

L. Srinivasa Varadharajan is a Research Scientist at the L.V. Prasad Eye Institute in Hyderabad, India. Previously, he was an associate professor of Optometry (optics) at SRM University, Chennai and at the Sankara Nethralaya Medical Research Foundation. He received his Ph.D. in physics at St. Louis under the supervision of the V. Lakshminarayanan and was a postdoctoral fellow at the University of California at Santa Barbara. He received the Dr. (Maj.) S. Srinivasan Memorial Award for the Best Junior Faculty, Medical Research Foundation two years in a row in addition to other awards. He was a founding member and served as the Optics Curriculum Coordinator for the Common Minimum

Optometry Curriculum for India (2009), which is used as the gold standard for optometric education in India. He is currently a member of the task force constituted by the Ministry of Women and Family Welfare that sets standards for the profession of optometry in India. He has supervised 11 graduate students and has published widely in the fields of spatial vision, visual psychophysics, signal processing, etc. He is also currently working on a book on geometric optics (to be published 2015).
