

PROCEEDINGS OF SPIE

International Conference on Computer Network Security and Software Engineering (CNSSE 2023)

Xiaohao Cai
Badrul Hisham bin Ahmad
Editors

10–12 February 2023
Sanya, China

Organized by
Harbin University (China)

Sponsored by
Universiti Teknikal Malaysia Melaka (Malaysia)

Published by
SPIE

Volume 12714

Proceedings of SPIE 0277-786X, V. 12714

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

International Conference on Computer Network Security and Software Engineering (CNSSE 2023),
edited by Xiaohao Cai, Badrul Hisham bin Ahmad, Proc. of SPIE Vol. 12714, 1271401 ·
© 2023 SPIE · 0277-786X · doi: 10.1117/12.2687304

Proc. of SPIE Vol. 12714 1271401-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *International Conference on Computer Network Security and Software Engineering (CNSSE 2023)*, edited by Xiaohao Cai, Badrul Hisham bin Ahmad, Proc. of SPIE 12714, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Publication of record for individual papers is online in the SPIE Digital Library.

SPIE. DIGITAL LIBRARY
SPIDigitalLibrary.org

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

COMPUTER NETWORK SECURITY AND SYSTEM DESIGN

- 12714 02 **A survey of the accountability framework for jobs of batch computing services** [12714-90]
- 12714 03 **Deep-learning-based intrusion detection methods** [12714-46]
- 12714 04 **Research on university network security situation assessment model** [12714-23]
- 12714 05 **Analysis and countermeasures of campus network security protection under IPV6 architecture** [12714-22]
- 12714 06 **Docker-based security protection system for container applications** [12714-13]
- 12714 07 **Recommendation system-application of unbiased deep learning in recommendation system with causal inference** [12714-67]
- 12714 08 **Design of computer network secure storage system based on big data clustering algorithm** [12714-9]
- 12714 09 **A big data technology for computer intrusion detection** [12714-87]
- 12714 0A **Intrusion detection model based on GA-BP** [12714-62]
- 12714 0B **Internet of Things: oriented data security risk monitoring system** [12714-80]
- 12714 0C **Program completeness verification mechanism based on static analysis** [12714-18]
- 12714 0D **DeCsmith, an automatic generation tool of equivalent program** [12714-14]
- 12714 0E **P2P based on network behavior analysis trust value calculation method** [12714-19]
- 12714 0F **Nonlinear congruential generator over a $GF(2^8)$ and its applications in improving AES key expansion algorithm** [12714-5]
- 12714 0G **Research on sea surface garbage classification algorithm based on improved VGG network** [12714-51]
- 12714 0H **A dynamic program analysis-based method for floating-point program precision loss detection** [12714-39]

- 12714 OI **An admission control method for CAN networks based on voltage fingerprinting** [12714-89]
- 12714 OJ **A deep reinforce learning-based intrusion detection method for safeguarding Internet of Things** [12714-65]
- 12714 OK **Optimize value-flow analysis based static vulnerability detection by solver rating** [12714-15]
- 12714 OL **ECOPY: Data-free model stealing for deep neural network** [12714-45]
- 12714 OM **Design of the audio security system based on Internet of Things** [12714-27]
- 12714 ON **Research on ARP attack principle and defense measures in LAN** [12714-55]
- 12714 OO **SQLDAF: SQL injection attack active defense system based on randomized method pool** [12714-68]

SOFTWARE MANAGEMENT AND AUTOMATION TESTING

- 12714 OP **Numerical control machining error compensation technology based on three-coordinate calibration** [12714-85]
- 12714 OR **Research and practice of management methods to enhance military software development capability** [12714-28]
- 12714 OS **Design and application of software performance testing process based on web application** [12714-73]
- 12714 OT **Research and implementation of document printing control method based on virtual component** [12714-33]
- 12714 OU **Design method of aircraft water system architecture based on model** [12714-16]
- 12714 OV **A survey of automatic exploitation of binary vulnerabilities** [12714-58]
- 12714 OW **Research on construction and application of stack overflow Q and A website ontology** [12714-36]
- 12714 OX **Automatic generation of security policy based on standardized security configuration** [12714-38]
- 12714 OY **Research and application of unmanned aerial vehicle control platform for electric power infrastructure** [12714-54]
- 12714 OZ **Application of big data technology in the design of TESOL system** [12714-69]
- 12714 IO **Classification model of packed malware with attention mechanism** [12714-26]

- 12714 11 **The automatic evaluation system based on open source hardware of endurance running in senior high school entrance physical examination [12714-52]**
- 12714 12 **A fuzzing scheme for microkernel operating system based on relationship between system calls [12714-8]**
- 12714 13 **A rational decision-making approach based on Bayesian network and BDI model for autonomous driving system [12714-43]**
- 12714 14 **Method of transformer top oil temperature forecasting based on grey-autoregressive differential moving average model [12714-2]**
- 12714 15 **Internet of Things-based mechanical condition monitoring system for power transmission towers [12714-47]**
- 12714 16 **Application of master data technology in enterprise data governance [12714-48]**
- 12714 17 **Design of high performance distributed storage system [12714-81]**
- 12714 18 **The design of RX software identification number [12714-59]**
- 12714 19 **A reliable transmission mechanism for data file extraction [12714-49]**
- 12714 1A **Fast simulation system of lug based on open source software [12714-66]**

ADVANCED ALGORITHM AND INTELLIGENT SIGNAL PROCESSING

- 12714 1B **An intrusion detection system for container cloud via graph translation and short sequence mapping of system call traces [12714-34]**
- 12714 1C **Abnormal behavior detection of ships in river T-intersection area based on shore-based surveillance radar data [12714-50]**
- 12714 1D **Research on comprehensive dispatching of earthquake relief based on emergency management [12714-53]**
- 12714 1E **Improved PBFT consensus algorithm based on RSA [12714-12]**
- 12714 1F **Research on computer network based on communication data crossing technology [12714-79]**
- 12714 1G **Comprehensive evaluation method based on entropy theory and intermediate truth value measurement [12714-21]**
- 12714 1H **Construction of university laboratory safety education system based on mobile platform [12714-20]**

- 12714 1I **Intelligent management of maintenance information of magnetic resonance imaging equipment** [12714-77]
- 12714 1J **Algorithm for identifying college students with financial difficulties** [12714-11]
- 12714 1K **Attack detection system based on provenance graph semantic analysis** [12714-30]
- 12714 1L **An efficient differential privacy federated learning scheme with adaptive privacy budget** [12714-86]
- 12714 1M **Browser fingerprint linking based on transformer-encoder model** [12714-41]
- 12714 1N **Research on unlabeled target domain adaptive information processing based on TrAdaBoost algorithm** [12714-56]
- 12714 1O **Fine-grained mutation strategy based on critical bytes** [12714-57]
- 12714 1P **A new parallel algorithm for transient structural analysis based on heterogeneous multi-core processor architecture** [12714-74]
- 12714 1Q **Research on visual recognition method of distribution network grounding ring** [12714-24]
- 12714 1R **A web service recommendation method based on reputation evaluation in small world heterogeneous network** [12714-44]
- 12714 1S **Identity-based key-preserved compacted representative signature as a teaching case of cryptography** [12714-37]
- 12714 1T **TEN: temporal excitation network for video action recognition** [12714-61]
- 12714 1U **Quantum hash function of continuous-time quantum walk based on cycle under broken-line decoherent noise** [12714-60]
- 12714 1V **Dynamic moving target defense strategy based on adaptive port hopping in SDN** [12714-71]
- 12714 1W **Cooperative control method for heterogeneous wireless networked robots based on parallel control** [12714-83]
- 12714 1X **Development and application of geological laboratory information management system** [12714-29]

Conference Committee

Conference Chair

Badrul Hisham bin Ahmad, Universiti Teknikal Malaysia Melaka
(Malaysia)

Publication Chair

Sunil Kumar Jha, Adani University (India)

Program Committee Chair

Mohammed Akour, Yarmouk University (Jordan)

Publicity Chair

Xiaohao Cai, University of Southampton (United Kingdom)

Program Committee

Kechao Wang, Harbin University (China)
Fangfang Jian, Henan University of Science and Technology (China)
Cheng Jin, New United Group Company Ltd. (China)
Yongquan Yan, Shanxi University of Finance and Economics (China)
Wenshun Sheng, Nanjing Tech University (China)

Technical Program Committee

Paul Blondel, Universite Picardie Jules Vernes (France)
Mamoun Alazab, Charles Darwin University (Australia)
Anhui Liang, Guangdong University of Technology (China)
Kevin Cohen, University of Colorado Boulder (United States)
Marcin Paprzycki, Systems Research Institute (Poland)
Maria Ganzha, Warsaw University of Technology (Poland)
Mahmoud AlShawabkeh, Guangxi Normal University for Nationalities
(China)
Ying-Ren Chien, Nationallan University (China)
Vladimir G. Chigrinov, Foshan University (China)
