

PROCEEDINGS OF SPIE

Eighth Geoinformation Science Symposium 2023: Geoinformation Science for Sustainable Planet

Ariel Blanco
Andi Besse Rimba
Chris Roelfsema
Sanjiwana Arjasakusuma
Editors

28–30 August 2023
Yogyakarta, Indonesia

Organized by
Universitas Gadjah Mada (Indonesia)

Sponsored by
Universitas Gadjah Mada (Indonesia)
Marine Technology Cooperation Research Center (Korea, Republic of)

Published by
SPIE

Volume 12977

Proceedings of SPIE 0277-786X, V. 12977

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Eighth Geoinformation Science Symposium 2023: Geoinformation Science for Sustainable Planet, edited by Ariel Blanco, Andi Besse Rimba, Chris Roelfsema, Sanjiwana Arjasakusuma, Proc. of SPIE Vol. 12977, 1297701
© 2024 SPIE · 0277-786X · doi: 10.1117/12.3025752

Proc. of SPIE Vol. 12977 1297701-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Publication of record for individual papers is online in the SPIE Digital Library.

SPIE. DIGITAL LIBRARY
SPIDigitalLibrary.org

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

ix *Conference Committee*

ANALYTIC CARTOGRAPHY AND GEOVISUALIZATION FOR GEOGRAPHIC MODELLING

- 12977 02 **Spatiotemporal analysis of traffic accidents hotspots using Twitter data: the case of Quezon City** [12977-48]
- 12977 03 **Spatio-temporal analysis of urban growth pattern and intensity in Mebidangro, North Sumatra from 2000 to 2022** [12977-73]
- 12977 04 **The 15-minute city of mass public transportation in Yogyakarta: case of Trans Jogja bus** [12977-33]
- 12977 05 **Who gets the most? Study of housing clustering and its relation to urban public transport accessibility in Jakarta** [12977-72]
- 12977 06 **A review from a geospatial perspective on how COVID-19 is affecting tourist activity in Yogyakarta city** [12977-11]
- 12977 07 **Flood mapping using Twitter crowdsourcing data with rainfall data analysis (case study: Jakarta, January 2020)** [12977-76]
- 12977 08 **How historical maps support geographical names study in Agam Regency, Indonesia** [12977-3]

REMOTE SENSING AND GIS FOR LAND USE AND LAND COVER MAPPING AND MONITORING

- 12977 09 **Analysis of land use dynamics in Kulon Progo Regency** [12977-7]
- 12977 0A **Combining land suitability models in determining the optimal locations for establishing Abaca plantations (*Musa testilis*) in Caraga Region, Philippines** [12977-57]
- 12977 0B **Landscape fragmentation analysis in Riau Province based on Sentinel-2A and SRTM imagery** [12977-80]
- 12977 0C **Learning the past landscape of Yogyakarta city from historical maps** [12977-2]
- 12977 0D **Monitoring land cover change and its estimated carbon loss in the Nusantara capital city Indonesia on high-resolution planet satellite imagery** [12977-20]
- 12977 0E **Understanding the influence of different sample sizes and sample techniques on accuracy assessment of land cover mapping: case study of Salatiga city, Indonesia** [12977-15]

REMOTE SENSING AND GIS FOR AGRICULTURAL MAPPING AND MONITORING

- 12977 0F **Application remote sensing for rice yield estimation: a methodology review** [12977-26]
- 12977 0G **Multispectral data UAV for rice growth phase: a comparison of pixel-based and object-based approach** [12977-62]
- 12977 0H **Estimating rice crop yield based on the Sentinel-1A C-band SAR data: a focus in the rice granary capital of Agusan del Sur, Philippines** [12977-44]
- 12977 0I **Mapping and assessment of slash-and-burn farming in Palawan, Philippines using various fire and burnt area products** [12977-50]
- 12977 0J **Mapping of garlic fields using rules-based techniques and remote sensing with a limited dataset** [12977-1]
- 12977 0K **Mapping the nutrient content of oil palm leaves based on machine learning to determine fertilizer recommendations in North Sumatra** [12977-68]

REMOTE SENSING AND GIS FOR CLIMATE CHANGE IMPACT AND ANALYSIS

- 12977 0L **Analysis of the effect of distance from the beach and elevation on surface urban heat island in Makassar city and its surroundings** [12977-10]
- 12977 0M **Climate change and surface urban heat islands in Jakarta: analysis of Landsat data and ground observations** [12977-41]
- 12977 0N **Comparative analysis of urban heat island phenomenon in residential and industrial areas of Jakarta and Surabaya** [12977-56]
- 12977 0O **Drought index analysis on the Nusantara Capital City of Indonesia (IKN)** [12977-66]
- 12977 0P **Spatial and temporal distribution model of carbon monoxide (CO) and particulate matter (PM) emission around PLTU Pelabuhan Ratu, Sukabumi, West Java** [12977-40]

REMOTE SENSING AND GIS FOR COASTAL AND MARINE ENVIRONMENT MAPPING

- 12977 0Q **Accuracy test of GEBCO bathymetry data in the Flores Sea** [12977-65]
- 12977 0R **Adaptive threshold from the Sentinel-2 oil spill index for oil spill detection** [12977-14]
- 12977 0S **Assessment of seagrass coverage on Panggang Island and Karang Congkak Island: a comparison between pre and post COVID-19 pandemic using Planetscope imagery** [12977-54]

- 12977 OT **Comparative analysis of random forest and support vector machine for benthic habitat segmentation** [12977-46]
- 12977 OU **Determining spatio-temporal distribution dynamics of chlorophyll-a in Banyuasin sea waters using remote sensing data** [12977-52]
- 12977 OV **Development of empirical CDOM algorithm for Sentinel-2 using the Gloria dataset** [12977-34]
- 12977 OW **Dynamics of multi-temporal analysis of coastal wetland area change using cloud computing** [12977-77]
- 12977 OX **Identifying coastlines change in Tangerang Regency Indonesia through historical maps** [12977-4]
- 12977 OY **Lifeform-based seagrass species composition mapping of Pari Island using WorldView-2 multispectral imagery** [12977-78]
- 12977 OZ **Parameter tuning of unsupervised algorithms to identify oil spills on the sea surface** [12977-29]
- 12977 IO **Riverine inputs into Manila Bay, Philippines potentially drive changes in chlorophyll-a and total suspended matter concentrations measured from MODIS** [12977-18]
- 12977 I1 **The change of coastal typology in Bali Island Karst Region at southern formation** [12977-38]
- 12977 I2 **Time-series seagrass percent cover mapping in Gili Lawang Island using PlanetScope imagery** [12977-31]

REMOTE SENSING AND GIS FOR DISASTER RISK MAPPING AND MANAGEMENT

- 12977 I3 **A numerical model for large-scale landslides based on digital elevation models** [12977-8]
- 12977 I4 **An integrated GIS methodology for identifying high-risk areas due to damaged coastal protection structures: a case study of Kollam district in Kerala, India** [12977-28]
- 12977 I5 **Analysis of impact of the 2021 eruption of the Semeru Volcano in Lumajang Regency, East Java Province, Indonesia** [12977-81]
- 12977 I6 **Flood inundation prediction model related to land subsidence with Lidar in North Coastal Jakarta** [12977-61]
- 12977 I7 **Identification of smoke peatland fire using remote sensing data based on machine learning** [12977-13]
- 12977 I8 **Microzonation mapping of building damage after earthquake disaster in Nagari Kajai West Pasaman district** [12977-69]

REMOTE SENSING AND GIS FOR ENVIRONMENTAL MAPPING AND MODELLING

- 12977 19 **Application of GIS and AHP in delineating and mapping coal extent prospect areas in Surigao del Sur, Philippines** [12977-24]
- 12977 1A **Dynamics of degraded peatland and its prediction in Kepulauan Meranti Regency, Riau Province** [12977-82]
- 12977 1B **The identification of hornbill habitat suitability in Batang Gadis National Park: geospatial predictive modeling** [12977-49]
- 12977 1C **Using Maxent in quantifying the impacts of climate change in land suitability of Abaca (*Musa testilis*) in Caraga Region, Philippines** [12977-58]

REMOTE SENSING AND GIS FOR HYDROLOGY AND TERRAIN ANALYSIS

- 12977 1D **Accuracy assessment of generated high-resolution DEMs using tri-stereo satellite images from KOMPSAT and SkySat over Davao City** [12977-60]
- 12977 1E **Groundwater and surface water interaction in the downstream part of Luk Ulo River, Kebumen Regency, Central Java Province, Indonesia** [12977-21]
- 12977 1F **Gully erosion mapping based on remote sensing data** [12977-74]
- 12977 1G **Iterative bundle adjustment without ground control points on SPOT-7 stereogrammetry and its effect on DEM geometric accuracy** [12977-5]
- 12977 1H **Mapping potential areas for hydrocarbon microseepage in Lower Agusan River Basin, Caraga, Philippines using Sentinel 2 imagery** [12977-23]
- 12977 1I **Mapping potential surface runoff areas in Batam with geographic Information system for flood mitigation** [12977-75]
- 12977 1J **Quantifying surface fractures at Krakal hot spring through lineament density analysis** [12977-16]
- 12977 1K **Relationship between circularity ratio and flood hazard of Java Island's watershed** [12977-12]
- 12977 1L **Remote sensing-based assessment of Varkala cliff retreat in Kerala, India** [12977-25]
- 12977 1M **Spatial modelling of inundation flood using remote sensing and geographic information system in Bogowonto Watershed, Purwodadi and Bagelen, Central Java** [12977-42]

REMOTE SENSING AND GIS FOR URBAN ENVIRONMENT MAPPING AND MODELLING

- 12977 1N **Assessing the impact of vegetation and its spatial configuration on land surface temperature in selected Indian cities** [12977-22]

- 12977 1O **Surface urban heat island (SUHI) spatiotemporal pattern in comparison with NDBI before/after COVID-19 pandemic in Sleman Regency, Indonesia** [12977-27]
- 12977 1P **Mapping the landscape: Dengue nexus in Mandaue city, Philippines** [12977-6]

REMOTE SENSING AND GIS FOR VEGETATION AND FOREST MONITORING

- 12977 1Q **Above-ground biomass mapping of mangrove forest using WorldView-3 imagery in Gili Lawang, Nusa Tenggara Barat** [12977-47]
- 12977 1R **Canopy cover mapping in Ratai Bay mangrove forests using airborne LiDAR data** [12977-53]
- 12977 1S **Drivers and projections of mangrove forest degradation in Segara Anakan Lagoon by using spatial dynamic model** [12977-39]
- 12977 1T **Enhancement of fire danger rating system for a better land/forest fire warning in South Sumatera Province, Indonesia** [12977-19]
- 12977 1U **Evaluating deep learning semantic segmentation architectures for mangrove mapping and monitoring using sentinel-2 data (case study: coastal zone of Rookery Bay, Florida, USA)** [12977-30]
- 12977 1V **Identification of suitable site for eco-therapy healing forest** [12977-70]
- 12977 1W **Machine learning approach to assess rubber plant health through canopy density mapping using very high-resolution aerial photographs** [12977-35]
- 12977 1X **Mapping and assessment of burned areas in Palawan, Philippines using SAR burned and vegetation indices** [12977-55]
- 12977 1Y **Thermal index effect in forest canopy density (FCD) methods based on remote sensing imagery** [12977-9]
- 12977 1Z **Time series pattern of radar vegetation index over rubber tree infected by *Pestalotiopsis* sp. leaf fall disease** [12977-37]

Conference Committee

Conference Chairs

Pramaditya Wicaksono, Universitas Gadjah Mada (Indonesia)
Bowo Susilo, Universitas Gadjah Mada (Indonesia)

Scientific Boards

Projo Danoedoro, Universitas Gadjah Mada (Indonesia)
Muhammad Dimiyati, Universitas Indonesia (Indonesia)
Alias Abdul Rahman, Universiti Teknologi Malaysia (Malaysia)
Dewayany Sutrisno, National Research and Innovation Agency (Indonesia)
Muhammad Aris Marfai, Indonesian Geospatial Agency (Indonesia)
Ammar Abdul Aziz, The University of Queensland (Australia)
Sigit Heru Murti, Universitas Gadjah Mada (Indonesia)
Taufik Hery Purwanto, Universitas Gadjah Mada (Indonesia)

Program Committee

Candra Sari Djati Kartika, Universitas Gadjah Mada (Indonesia)
Prima Widayani, Universitas Gadjah Mada (Indonesia)
Nur Mohammad Farda, Universitas Gadjah Mada (Indonesia)
Iswari Nur Hidayati, Universitas Gadjah Mada (Indonesia)
Sandy Budi Wibowo, Universitas Gadjah Mada (Indonesia)
Sudaryatno, Universitas Gadjah Mada (Indonesia)
Nurul Khakhim, Universitas Gadjah Mada (Indonesia)
Doddy Mendro Yuwono, Indonesian Geospatial Agency (Indonesia)
Masita Dwi Mandini Manessa, Universitas Indonesia (Indonesia)

Session Chairs

- 1 Analytic Cartography and Geovisualization for Geographic Modelling
Candra Sari Djati Kartika, Universitas Gadjah Mada (Indonesia)
- 2 Remote Sensing and GIS for Environmental Mapping and Modelling
Projo Danoedoro, Universitas Gadjah Mada (Indonesia)
- 3 Remote Sensing and GIS for Disaster Risk Mapping and Management
Nur Mohammad Farda, Universitas Gadjah Mada (Indonesia)

- 4 Remote Sensing and GIS for Urban Environment Mapping and Modelling
Iswari Nur Hidayati, Universitas Gadjah Mada (Indonesia)
- 5 Remote Sensing and GIS for Agricultural Mapping and Monitoring
Sanjiwana Arjasakusuma, Universitas Gadjah Mada (Indonesia)
- 6 Remote Sensing and GIS for Vegetation and Forest Monitoring
Prima Widayani, Universitas Gadjah Mada (Indonesia)
- 7 Remote Sensing and GIS for Climate Change Impact and Analysis
Nurul Khakhim, Universitas Gadjah Mada (Indonesia)
- 8 Remote Sensing and GIS for Land Use and Land Cover Mapping and Monitoring
Bowo Susilo, Universitas Gadjah Mada (Indonesia)
- 9 Remote Sensing and GIS for Coastal and Marine Environment Mapping
Pramaditya Wicaksono, Universitas Gadjah Mada (Indonesia)
- 10 Remote Sensing and GIS for Hydrology and Terrain Analysis
Sandy Budi Wibowo, Universitas Gadjah Mada (Indonesia)
