

PROCEEDINGS OF SPIE

Second International Conference on Physics, Photonics, and Optical Engineering (ICPPOE 2023)

Yingkai Liu
Editor

10–12 November 2023
Kunming, China

Organized by
Yunnan Normal University

Published by
SPIE

Volume 13075

Proceedings of SPIE 0277-786X, V. 13075

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Second International Conference on Physics, Photonics, and Optical Engineering
(ICPPOE 2023), edited by Yingkai Liu, Proc. of SPIE Vol. 13075, 1307501
© 2024 SPIE · 0277-786X · doi: 10.1117/12.3029409

Proc. of SPIE Vol. 13075 1307501-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Second International Conference on Physics, Photonics, and Optical Engineering (ICPPOE 2023)*, edited by Yingkai Liu, Proc. of SPIE 13075, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

ix *Conference Committee*

APPLIED PHYSICS

- 13075 02 **Edge-guided nonlinear dynamic convolution network for lightweight semantic segmentation** [13075-5]
- 13075 03 **Research on joint separation scheme of Jingshan gravity dam based on finite element simulation calculation** [13075-20]
- 13075 04 **The effect of nozzle contraction ratio on the propagation of rotating detonation waves in subcritical kerosene** [13075-35]
- 13075 05 **Study on the ultimate bearing capacity of pinned nodes of holding pole** [13075-41]
- 13075 06 **Analysis on ultimate bearing capacity of welded joints in floor-standing double-rocker gin pole under axial tension conditions** [13075-45]
- 13075 07 **Factor and cluster analysis of virtual simulation physics experiment** [13075-63]
- 13075 08 **Application of Doppler effect and design of Doppler effect demonstration device** [13075-66]
- 13075 09 **Wind tunnel experimental study on the flow field of high-speed train bogies** [13075-76]
- 13075 0A **Machine learning method for molecular dynamics simulation of interactions between low-temperature plasma and drugs** [13075-117]
- 13075 0B **Research on combination of fuzzy immune PID and pitch angle** [13075-10]
- 13075 0C **Factors of treating wastewater with modified carbon and nitrogen materials** [13075-19]
- 13075 0D **The method of detecting sea level motion based on the top-hat** [13075-42]
- 13075 0E **Experimental mechanical study of ship structure during automatic mooring operation** [13075-75]
- 13075 0F **Research progress and applications of semiconductor nanolasers and plasmonic nanolasers** [13075-110]
- 13075 0G **Structural improvement and simulation analysis of the inner and outer layers of vehicle-mounted high-pressure hydrogen storage tank** [13075-115]

COMMUNICATION ENGINEERING

- 13075 0H **Research on spatial technology of distribution network digital twin model based on multimodule data fusion** [13075-44]
- 13075 0I **Research on power supply and distribution design for micro sar satellite** [13075-52]
- 13075 0J **Application practice of neural network algorithms in speech recognition technology** [13075-55]
- 13075 0K **Evaluating SIP-based VoIP communication quality and network security** [13075-56]
- 13075 0L **Based on artificial intelligence and digital space technology, research on environmental landscape design of Jinghe art and culture centre** [13075-84]
- 13075 0M **Studying computer communication networks to identify errors using enhanced neural network algorithms** [13075-90]
- 13075 0N **Detection of abnormal signal of power carrier combined with carrier communication technology** [13075-119]

ELECTRICAL ENGINEERING

- 13075 0O **Performance analysis and optimisation of removable transformers for non-contact power supply** [13075-6]
- 13075 0P **Study on the effect of rotor structure on motor performance of IPMSM** [13075-12]
- 13075 0Q **Partial discharge localization method utilizing a 3D optical sensor array** [13075-13]
- 13075 0R **Electric vehicle power battery fault diagnosis based on wavelet decomposition and modified Z-score model** [13075-14]
- 13075 0S **Research on motor bearing fault diagnosis based on BO-PCA-BiLSTM** [13075-15]
- 13075 0T **Research on pressure control system of evaporation tank based on adaptive fuzzy PID** [13075-21]
- 13075 0U **Active disturbance rejection variable pitch control based on sparrow optimization** [13075-37]
- 13075 0V **Research on improving starting torque of submersible lng pump asynchronous motor** [13075-39]
- 13075 0W **Research on heterogeneous computing resource scheduling mechanism for power information system operation** [13075-43]
- 13075 0X **Vehicle fault diagnosis expert system** [13075-50]

- 13075 0Y **Fault diagnosis of motor bearing equipment based on vibration signals** [13075-65]
- 13075 0Z **The development of overall controller for dual-axis drive electric vehicles** [13075-67]
- 13075 10 **A real-time data quality analysis method and application for power systems based on balance calculation** [13075-88]
- 13075 11 **Research on active safety testing based on China new car assessment program (C-NCAP)** [13075-2]
- 13075 12 **A vector control strategy of permanent magnet synchronous motor with improved flux observer** [13075-8]
- 13075 13 **Comparative analysis of engine exhaust heat utilization technologies** [13075-46]
- 13075 14 **Application of GA in motor transfer function** [13075-47]
- 13075 15 **CGS-YOLOv5: a defect detection algorithm for PCB board based on YOLOv5 algorithm** [13075-51]
- 13075 16 **Design of real-time adjustment system for headlamp intensity of intelligent automobile based on sensor feedback** [13075-68]
- 13075 17 **Research on the heat dissipation performance of new energy batteries in intelligent connected vehicles based on deep learning** [13075-69]
- 13075 18 **Design of real-time penetration testing device for hammer sunk piles** [13075-70]
- 13075 19 **Motion control in endurance testing of electric window-lift gear motors** [13075-71]
- 13075 1A **Real-time monitoring and fault diagnosis of new energy power generation system based on deep convolution neural network** [13075-72]
- 13075 1B **Research on optimal application of vehicle edge computing in intelligent networked vehicle battery management** [13075-73]
- 13075 1C **Local structural strength and dynamic response analysis of ship structure under automatic mooring equipment** [13075-74]
- 13075 1D **Research on diversion collection and on-demand penetration retrieval technology based on the importance of substation equipment data** [13075-86]
- 13075 1E **Enhancing aero-engine airway fault diagnosis through multimodal deep neural networks** [13075-95]
- 13075 1F **Application of electric power project management information system** [13075-97]
- 13075 1G **Simulation of fault prediction model of inverter and high voltage motor based on deep learning algorithm** [13075-120]

- 13075 1H **Research on identification and fault diagnosis of electrical equipment based on machine learning** [13075-121]
- 13075 1I **Design of 2.4G wireless remote control car based on STM32** [13075-123]
- 13075 1J **Electrical control and fault diagnosis of CNC machine tool feed shaft** [13075-124]

IMAGE PROCESSING

- 13075 1K **Application of visual aesthetic feeling of intelligent computer color in ceramic art design** [13075-54]
- 13075 1L **Innovative teaching methods of college Chinese in virtual reality environment** [13075-61]
- 13075 1M **Realistic image generation in virtual reality using deep learning techniques** [13075-64]
- 13075 1N **Bird image classification based on joint, the inception V3 model, and transfer learning** [13075-87]
- 13075 1O **Performance optimization and acceleration of convolutional neural networks in computer vision tasks** [13075-102]
- 13075 1P **Design of mobile communication image transmission compression algorithm based on convolutional neural network** [13075-122]
- 13075 1Q **Study on spectral reflectance model for color printing dot** [13075-34]
- 13075 1R **An adaptive defogging method for aerial images on rainy days based on deep learning** [13075-59]
- 13075 1S **An interior design framework utilizing image processing and virtual reality technologies** [13075-80]
- 13075 1T **An analytical research using image processing to create an architectural virtual scene** [13075-89]
- 13075 1U **Research and implementation of business English translation software based on image character recognition** [13075-96]
- 13075 1V **Application of deep learning in digital product design: product innovation through generative adversarial networks** [13075-99]
- 13075 1W **CT and MRI fusion diagnosis technology based on recurrent neural network** [13075-100]
- 13075 1X **The application of pose estimation algorithm in ballet movement analysis** [13075-101]

13075 1Y **Image recognition in depth: comparative study of CNN and Pre-trained VGG16 architecture for classification tasks** [13075-103]

OPTOELECTRONICS

- 13075 1Z **A guidance framework for material design of perovskite-type electrode of SOFC based on generative model** [13075-1]
- 13075 20 **Defect detection method of lithium battery based on improved YOLOv7** [13075-3]
- 13075 21 **A novel MPPT control strategy with modified variable step conductance increment method is presented** [13075-4]
- 13075 22 **A defect detection method for lithium batteries based on shear wave threshold and K-means clustering segmentation** [13075-7]
- 13075 23 **Research on cluster analysis of power load characteristics based on combination algorithm** [13075-9]
- 13075 24 **Reliability study of distribution grids containing distributed photovoltaic power sources** [13075-16]
- 13075 25 **Analysis of flexibility optimal scheduling of CCHP power supply network** [13075-33]
- 13075 26 **Optimal design study of fixed-sun mirror field for tower solar thermal power plant** [13075-82]
- 13075 27 **Non-contact infrared thermometer based on arduino** [13075-91]
- 13075 28 **Interactive architecture and decision technology of source-network-charge-storage interconnection in new power system** [13075-92]
- 13075 29 **Bi-level optimization operation strategy for CCHP microgrid with compressed air energy storage** [13075-93]
- 13075 2A **Research on enhanced genetic algorithm and its use in electronic component performance optimization** [13075-105]
- 13075 2B **Simulation performance analysis of FBMC-OQAM system based on frequency spreading** [13075-109]
- 13075 2C **Design and manufacture of device for making water from air based on solar energy** [13075-114]
- 13075 2D **B-LSTM ultra-short-term wind power prediction based on LOF data anomaly detection** [13075-22]
- 13075 2E **Electromagnetic interference analysis of control and protection device for VSC-HVDC** [13075-38]

- 13075 2F **Application of photoelectric information technology in the barcode identification system** [13075-78]
- 13075 2G **Application of deep learning network in power anomaly detection of big data** [13075-79]
- 13075 2H **The application of power engineering technology in the construction of smart grid** [13075-98]
- 13075 2I **Research on machine learning-based solar energy production prediction** [13075-106]
- 13075 2J **Recent advances in maximum power point tracking for energy harvest in solar photovoltaic systems** [13075-107]
- 13075 2K **A study on using two-stage multiple support vector machines to forecast medium-term electricity market prices** [13075-111]
- 13075 2L **Research on electricity price prediction based on deep learning models** [13075-113]
- 13075 2M **Remaining useful life prediction for lithium batteries using CNN- BiLSTM-Attention hybrid method** [13075-116]
- 13075 2N **Studying temporary employment strategies in photovoltaic grid-connected projects below 10kV: focusing on photovoltaic system integration** [13075-118]

Conference Committee

General Chairs

Roumen Kountchev, Technical University of Sofia (Bulgaria)
Junsheng Shi, Yunnan Normal University (China)
Yingkai Liu, Yunnan Normal University (China)

Programme Chairs

Ali Raza, Government College University Faisalabad (Pakistan)
Najam Ul Hassan, University of Education (Pakistan)
Anas Bilal, Beijing University of Technology (China)
Alok Kumar, Ericsson-Tallinn (Estonia)
Santhosh Krishna B.V., New Horizon College of Engineering (India)
Muhammad Khuram Shahzad, Khawaja Fareed University (Pakistan)
Muddassir Iqbal, Nanjing University of Information Science and Technology (China)

Publication Chair

Shengqing Li, Hunan University of Technology (China)

Organizing Chairs

Yonghang Tai, Yunnan Normal University (China)
Shoulin Yin, Shenyang Normal University (China)
Hang Li, Shenyang Normal University (China)

International Advisory Chair

Roumiana Koutcheva, S.R., TK Engineering (Bulgaria)

Contacting Chair

Bin Hu, Changsha Normal University (China)

Technical Program Committee

Dorian Cojocaru, University of Craiova (Romania)
Antonios Andreatos, Hellenic Air Force Academy (Greece)
Vladicescu Popentiu, Florin, City University (United Kingdom)
Guangzhi Qu, Oakland University (United States)
Zhengtao Yu, Kunming University of Science and Technology (China)
V.S.S. Yadavalli, University of Pretoria (South Africa)

Bruno Apolloni, Università degli Studi di Milano (Italy)
Harry Bouwman, Delft University of Technology (Netherlands)
Shyi-Ming Chen, National Taiwan University of Science and Technology (China)
Yahaya Coulibaly, University Technology Malaysia (Malaysia)
Ing Kong, RMIT University (Australia)
Gerald Midgley, Centre for Systems Studies, Business School, University of Hull (United Kingdom)
Khubaib Ahmed, Hamdard University (Pakistan)
Moustafa Mohammed Eissa, Faculty of Engineering-Helwan University (Egypt)
Fernando Boronat Seguí, Universitat Politècnica de Valencia (Spain)
Alexandros Fragkiadakis, Institute of Computer Science (FORTH-ICS) (Greece)
Cristina Alcaraz, University of Malaga (Spain)
Mohamed Atef, Assiut University (Egypt)
Weilin Wang, University of Georgia (United States)
Bensafi Abd-Ei-Hamid, World Islamic Sciences and Education University (Jordan)
Yudi Gondokaryono, Institute of Teknologi Bandung (Indonesia)
Hadi Arabshahi, Ferdowsi University of Mashhad (Iran)
Qian Lv, Western Digital (United States)
Alojz Poredo, University of Ljubljana (Slovenia)
Mohamed F. El-Santawy, Cairo University (Egypt)
Tongpin Liu, University of Massachusetts Amherst (United States)
Seema Verma, Banasthali University (India)
Imran Memon, Zhejiang University (Pakistan)
Hao Fu, Facebook Inc. (United States)
Maryam Zahid, Capital University of Science and Technology (Pakistan)
Corneliu Doroffei, Alexandru Ioan Cuza University of Iasi (Romania)
Md. Shamim Anower, Rajshahi University of Engineering & Technology (Bangladesh)
