PROCEEDINGS OF SPIE

2nd International Conference on Applied Mathematics, Modelling, and Intelligent Computing (CAMMIC 2022)

Hari Mohan Srivastava
Chi-Hua Chen
Editors

25–27 March 2022
Kunming, China

Organized by
Federal University of Rio Grande (Brazil)

Sponsored by
AEIC Academic Exchange Information Center (China)

Published by
SPIE

Volume 12259
Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 12259

2nd International Conference on Applied Mathematics, Modelling, and Intelligent Computing (CAMMIC 2022), edited by Hari Mohan Srivastava, Chi-Hua Chen, Proc. of SPIE Vol. 12259, 1225901 · © 2022 SPIE · 0277-786X doi: 10.1117/12.2642148

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *2nd International Conference on Applied Mathematics, Modelling, and Intelligent Computing (CAMMIC 2022)*, edited by Hari Mohan Srivastava, Chi-Hua Chen, Proc. of SPIE 12259, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

PART ONE	MATHEMATICAL STATISTICAL METHODS AND NUMERICAL PROBABILITY ANALYSIS
12259 02	**Numerical simulation study on water environment of Puzhehei Lake** [12259-2]
12259 03	**Numerical analysis of wave characteristic of freak wave event in the Japan Sea** [12259-130]
12259 04	**Exposure risks of pedestrians during walking along the street** [12259-131]
12259 05	**Simulation of precipitation in 50 US state capitals for the 20th century using random walk** [12259-10]
12259 06	**Quantitative identification of dominant seepage channels in streamline numerical simulation** [12259-191]
12259 07	**Technical research and application of parameter calculation for numerical simulation of chemical flooding** [12259-167]
12259 08	**Research on investment value system of power grid emerging business based on index screening and G1-entropy weight method** [12259-108]
12259 09	**Statistical analysis and probability forecast of unexpected events in colleges and universities** [12259-67]
12259 0A	**Numerical simulation analysis on construction and operation period of pipe jacking underpassing gas station** [12259-101]
12259 0B	**Application of interval type-2 VIKOR method in risk assessment of chemical industry** [12259-194]
12259 0C	**Transformer enhanced hierarchical 3D point cloud semantic segmentation** [12259-76]
12259 0D	**Research on satellite network analysis methods for spatiotemporal characteristics** [12259-97]
12259 0E	**Random walk: statistical data analysis and application in finance** [12259-239]
12259 0F	**Study on extreme weather risks in Beijing based on double-layer indicators** [12259-3]
12259 0G	**Fundamental results in the probability theory** [12259-245]
12259 0H	**Empirical analysis of Ridge, Lasso, and Dropout regularizations** [12259-129]

12259 0I **Analysis of the floating minority population in Tibet and Mongolia based on the Cox model** [12259-46]

12259 0J **Fundamental theorems in the probability theory** [12259-237]

12259 0K **Analysis of the main factors affecting the number of COVID-19 deaths** [12259-229]

12259 0L **On the joint probability density function of a stochastic growth process with random stopping time** [12259-12]

12259 0M **List-edge and list-total colorings of graphs embedded on surfaces of negative Euler characteristic** [12259-272]

12259 0N **Research on water resources value of Zichuan District based on grey comprehensive evaluation** [12259-58]

12259 0O **New construction of coded caching scheme** [12259-13]

12259 0P **Control of traffic light timing using probability distribution genetic algorithm and finite state machine** [12259-136]

12259 0Q **Design of optimal furnace temperature curve based on differential element method** [12259-142]

12259 0R **Numerical simulation of the influence of pipe jacking machine selection on surrounding rock stability under the condition of alternating strata** [12259-206]

12259 0S **Modified PSS-GSOR method for solving saddle point problem** [12259-148]

12259 0T **The proving of three dimensions in the P´olya's random walk problem** [12259-231]

12259 0U **Statistical research methods for genetics** [12259-190]

12259 0V **Some basic properties in harmonic analysis** [12259-255]

12259 0W **A study of carbon sequestration options based on numerical prediction models** [12259-252]

12259 0X **Research on land resources asset accounting based on mathematical statistics** [12259-82]

12259 0Y **Numerical simulation of crack failure of concrete faced rockfill dam under multiple conditions** [12259-17]

12259 0Z **Numerical simulation of explosion impact from buried oil storage tank on pipe jacking structure** [12259-90]

12259 10 **Study on oxygen diffusion movement law of artificial oxygenation** [12259-293]

12259 11 **Studying the spread of infectious diseases in closed systems based on ordinary differential equations** [12259-89]

12259 12 **Special functions and orthogonal polynomials** [12259-116]

12259 13 **Study on the hydrodynamic characteristics of tide current for the Pearl River Estuary based on planar two-dimensional hydrodynamic mathematical model** [12259-285]

APPLICATION OF COMPUTATIONAL MATHEMATICS AND ANALYSIS OF MATHEMATICAL THEORY

12259 14 **Application of numerical integration technology in finite element numerical calculation of impact mechanics** [12259-40]

12259 15 **Optimization model analysis and its application in mathematical modeling** [12259-154]

12259 16 **Parallel computing model based on python in quantitative analysis** [12259-187]

12259 17 **Exact solution of the general coupled nonlinear Schrödinger system** [12259-107]

12259 18 **Established results in group theory** [12259-224]

12259 19 **The spectral radius of the adjacency matrix of a complete binary tree as the number of nodes approaches infinity** [12259-112]

12259 1A **Fundamental results in group theory** [12259-241]

12259 1B **Study on decomposition of fungi based on mathematical model** [12259-159]

12259 1C **A version of Schwarz lemma based on Cauchy integral formula in octonionic analysis** [12259-60]

12259 1D **Investigating the co-relationship between housing price and inflation by assembling wavelet based time-frequency analysis** [12259-72]

12259 1E **Non-existance of function between equivalent left and right numbers** [12259-218]

12259 1F **Combinatorial proofs of Fibonacci identities** [12259-161]

12259 1G **A proof of Cauchy theorem by action of group** [12259-223]

12259 1H **The application of residue formula** [12259-236]

12259 1I **Cauchy's residue theorem for a class of real integrals** [12259-242]

12259 1J **Conformal mapping and its applications** [12259-244]

12259 1K **Forecasting VaR based on joint quantile and ES regression models** [12259-26]

12259 1L **Classical results in group theory** [12259-225]

12259 1M **The principle and application of Monte Carlo simulation in public health, finance, and physics** [12259-230]

12259 1N **The principle and applications of random walks in various disciplines** [12259-240]

12259 1O **Generalization of Cauchy-residue formula** [12259-203]

12259 1P **Probe into properties of normal distribution** [12259-162]

12259 1Q **Application of Thompson sampling on multi-target search** [12259-254]

12259 1R **Equilibrium points for a system of fuzzy difference equations** [12259-179]

12259 1S **Soliton solutions for a generalized (1+1)-dimensional equation** [12259-213]

12259 1T **Three Sylow theorems and their proofs** [12259-195]

12259 1U **The application of random walk simulation in finance** [12259-243]

12259 1V **Mathematical modeling of HBV transmission and the effect of booster shots** [12259-144]

12259 1W **A special kind of integral by residue theorem** [12259-260]

12259 1X **Existence and uniqueness of viscosity solutions for parabolic Hessian equations** [12259-251]

12259 1Y **High-order fast algorithm for solving Helmholtz equation with large wave numbers** [12259-271]

12259 1Z **DQ method for initial boundary value problem of Burgers equation based on Hopf-Cole transform** [12259-95]

12259 20 **To measure the influence of collinearity effectively: the deficiency of condition number and an improvement of main squared error** [12259-61]

12259 21 **Research on ecological environment assessment mathematical model based on correlation analysis** [12259-4]

12259 22 **The application of improved VaR-Treynor and VaR-Jensen's α in financial mathematical modeling: taking photovoltaic building integration plate as an example** [12259-78]

12259 23 **Predicting GRE score range using TOEFL score based on Bayes theorem** [12259-207]

12259 24 **Application of cloud-based data analysis in applied mathematics** [12259-297]

12259 25 **Historical synopsis of Cauchy residue theorem** [12259-175]

12259 26 **Generalization of residue theorem** [12259-172]

12259 27 **Core of abstract algebra: group theory** [12259-221]

12259 28 **Fundamental theorems from group theory** [12259-299]

12259 29 **Residue theorem and its applications** [12259-193]

12259 2A **A theoretical model for permeability of hydraulic fractures** [12259-18]

12259 2B **Influence of the inlet Mach number and size of its throat on the symmetrical nozzle flow by small disturbance equation method** [12259-19]

12259 2C **Investigation of tensions of inclined cables considering bending stiffness based on an implicit function method** [12259-86]

12259 2D **Analysis of Biot-Savard Law formula transformation** [12259-143]

12259 2E **The integral points on the elliptic curve $y^2=3mx(x^2-8)$** [12259-295]

APPLICATION OF COMPUTATIONAL MODEL PREDICTION AND SIMULATION TECHNOLOGY

12259 2F **GCN model combined with Bi-GRU for traffic prediction** [12259-298]

12259 2G **The research of the application of grey Markov SCGM (1,1) model in the prediction of source water quality** [12259-303]

12259 2H **Application of multidimensional grey prediction model in Hainan regional economic system** [12259-9]

12259 2I **Barriers for sustainable waste management in Beijing based on a hybrid MMDE-ISM model** [12259-156]

12259 2J **Risk assessment of long-distance transmission pipelines based on minimum deviation-Kent model** [12259-106]

12259 2K **Damage assessing and improving city resilience strategies of hurricanes based on Hazus model** [12259-214]

12259 2L **Evaluation of the promotion policy on electric vehicles using a static CGE model** [12259-1]

12259 2M **Research on the calculating model of power grid investment ability under the reform of transmission and distribution price** [12259-249]

12259 2N **Study on influencing factors of professionalization of migrant workers in construction industry based on logistic regression model** [12259-43]

12259 2O **Research on supply chain network model considering stochastic transportation lead time** [12259-5]

12259 2P **Empirical measurement of ecological carrying capacity in Chaohu area based on factor analysis and grey relation analysis model** [12259-83]

12259 2Q **Prediction of AIDS incidence based on grey model in Guangdong Province** [12259-196]

12259 2R **Design of distributed energy transaction model for spot market** [12259-209]

12259 2S **The impact of climate factors on Alaska fire carbon emission from 2001 to 2018** [12259-147]

12259 2T **Principal component analysis model of the impact of asteroid mining on global equity** [12259-103]

12259 2U **Dynamic simulation of a rigid-flexible coupling positioning stage base on modified floating frame of reference formulation** [12259-169]

12259 2V **The influence of Southbound capital on the price volatility of Hong Kong stocks based on the PSM+DID model** [12259-41]

12259 2W **Budget performance evaluation of weapon R and D projects based on cloud matter-element model** [12259-79]

12259 2X **Research on improved SEIR model predicting UK Coronavirus variant Omicron outbreak** [12259-100]

12259 2Y **Research on life cycle environmental impact assessment and decision analysis model of building materials based on BIM** [12259-49]

12259 2Z **Multi-level forest evaluation model based on carbon sequestration** [12259-66]

12259 30 **Introduction of a damage simulation software for armor piercing projectile and high-explosive anti-tank** [12259-92]

12259 31 **CFD simulation of heat pipe for embedded envelope based on ANSYS** [12259-115]

12259 32 **Research on the epidemic development Of COVID-19 virus using a revised model** [12259-85]

12259 33 **Analysis of influencing factors of military equipment maintenance ability based on DEMATEL-ISM model** [12259-163]

12259 34 **Grey target decision-making model based on triangle area** [12259-296]

PART TWO

12259 35 **Heart disease prediction model using tree-based method** [12259-232]

12259 36 **A mathematical model for balancing safety and economy of UAVs in forest firefighting** [12259-111]

12259 37 **Optimal control study of a predator-prey model with nonlinear prey harvesting** [12259-77]

12259 38 **Fast active reflector shape adjustment modeling based on MATLAB simulation** [12259-184]

12259 39 **Health level assessment of residents in Fujian province based on fuzzy comprehensive evaluation model** [12259-70]

12259 3A **Novel water allocation modeling of Colorado River: water-electricity and efficiency-equity tradeoffs** [12259-24]

12259 3B **Construction and simulation research of logistics automation stereoscopic storage system based on digital twin** [12259-257]

12259 3C **A hierarchical CNN-transformer model for network intrusion detection** [12259-278]

12259 3D **Exploring the relationship between C4 olefins and reaction temperature based on regression analysis model** [12259-275]

12259 3E **Dynamics of a fractional time-delay smoking model** [12259-62]

12259 3F **Simulation calculation of aerodynamic performance of Mira model based on virtual wind tunnel** [12259-52]

12259 3G **Forecasting method of China's total population based on intervention model** [12259-219]

12259 3H **Design and software of a digital model library for JDAM ammunition** [12259-99]

12259 3I **Application of computer simulation technology in automobile parts test** [12259-135]

12259 3J **Discussion on raw material ordering and transportation of manufacturing enterprises based on optimal model** [12259-274]

12259 3K **Research on price forecast and purchase of volatile assets based on LSTM** [12259-153]

12259 3L **Prediction of mutations in H5N1 hemagglutinin from influenza A virus with and without ending codon** [12259-96]

12259 3M **Hydraulic system simulation of hybrid hydraulic module based on Simulink** [12259-87]

12259 3N **Energy dissipation at traffic bottleneck based on NaSch model with open boundary condition** [12259-284]

12259 3O **Improved PNGV equivalent circuit model for battery characteristics** [12259-288]

12259 3P **A novel power balance model for power systems considering two-sided stochastic source-load** [12259-289]

12259 3Q **Application of power system vector model in substation operation and maintenance period** [12259-292]

12259 3R **Dynamic allocation model for large-scale distributed photovoltaic prosumer clusters based on hierarchical consumption mechanism** [12259-286]

12259 3S **An internal and external coordinated transaction model for load aggregator under the multi-market driven by dual carbon goals** [12259-290]

12259 3T **A study of price transmission relationship between electricity wholesale and retail electricity markets based on system dynamics model** [12259-282]

12259 3U **Energy feature model based on feature vector set** [12259-291]

INTELLIGENT COMPUTING OPTIMIZATION AND DATA MINING APPLICATIONS

12259 3V **Quantitative study on low cost factors of rural energy based on optimal objective function mathematical model** [12259-307]

12259 3W **Research on the relationship between domestic carbon information disclosure system and disclosure quality: an empirical study based on the constituent stocks of Shanghai Stock Exchange Social Responsibility Index** [12259-8]

12259 3X **Study on preparation of C4 olefins by ethanol coupling based on linear regression** [12259-270]

12259 3Y **Research on the estimation of port emission and sustainable development from the perspective of big data** [12259-59]

12259 3Z **Study on a corrected calculation method of original oil saturation** [12259-202]

12259 40 **Study on overuse degree of chemical fertilizers for food crops in Hubei province, China based on C-D production function** [12259-25]

12259 41 **Correlation analysis and modeling based on water quality data of Shuimentang Reservoir** [12259-123]

12259 42 **Sustainable development strategy of electric energy based on cloud computing technology** [12259-137]

12259 43 **Modeling and multi-objective optimization of biogas high pressure water scrubbing** [12259-188]

12259 44 **Construction and application of financial fraud early warning model based on data mining** [12259-170]

12259 45 **A new type of spline interpolation method with its application in the tunneling process of tunnel boring machine** [12259-178]

12259 46 **Research on the application of linear programming to the travelling salesman problem** [12259-16]

12259 47 **Evaluation of emergency management ability of COVID-19 vaccine safety emergencies based on AHP-TOPSIS** [12259-160]

12259 48 **Application of LS-VSM and HP filter: the pork price floating and forecasting in China** [12259-208]

12259 49 **Research on the application of situation form judgment in command training based on K nearest neighbor data mining algorithm** [12259-36]

12259 4A **Exploring the optimal conditions for the preparation of C4 olefins by ethanol coupling based on regression analysis** [12259-281]

12259 4B **The traveling salesman problem of route optimization: a study on tourists' travel plan through Guangzhou subway networks** [12259-267]

12259 4C **Research on dynamic scheduling method of railway transportation based on pre-classification** [12259-189]

12259 4D **Particle swarm optimizer enhanced with local genetic operator** [12259-15]

12259 4E **The simplex method to optimize food supply** [12259-266]

12259 4F **Research on quantitative evaluation method of gas user regional safety** [12259-155]

12259 4G **Research on enterprise raw material ordering and transportation calculation model based on data mining** [12259-73]

12259 4H **Application of differential equations to model the evolution of proteins from influenza A virus with an example of polymerase basic protein 2** [12259-91]

12259 4I **Multifractal analysis on the cross-correlation between China and WTI crude oil futures prices** [12259-65]

12259 4J **Modeling and optimization of chemical reaction based on XGBoost-PSO** [12259-308]

12259 4K **Modeling and optimization of spatial information network based on hybrid connection strategy** [12259-113]

12259 4L **Using the technique of linear programming to solve a diet problem** [12259-268]

12259 4M **Three-dimensional Euler solutions for drone delivery trajectory prediction under extreme environments** [12259-53]

12259 4N **Comparisons of different methods used for second-hand car price prediction** [12259-38]

12259 4O **What new energy vehicles bring to society: analyzing based on mathematical modeling** [12259-250]

12259 4P **A method to calculate vertical temperature gradient and temperature advection based on flat-floating sounding data** [12259-44]

12259 4Q **Calculation and optimization scheme of community swing safety** [12259-84]

12259 4R **Opportunities for quantum computation in computational fluid dynamics** [12259-205]

12259 4S **Study on the influence of the coupling of wind direction and branch angle on the ventilation performance of trigeminal street canyon** [12259-57]

12259 4T **Analysis of knots' loosening mechanism** [12259-305]

12259 4U **Nonlinear internal force analysis of square flexible foundation plate** [12259-33]

12259 4V **Research on nonlinear dynamic analysis of seismic performance of comprehensive pipe gallery** [12259-280]

12259 4W **Dual mode switching strategy of LCL grid connected converter based on model predictive control** [12259-287]

ARTIFICIAL INTELLIGENCE TECHNOLOGY AND DEEP LEARNING ALGORITHMS

12259 4X **Application of computer modeling in massage chair design** [12259-253]

12259 4Y **Application of computer modeling and rendering technology in pet feeder design** [12259-259]

12259 4Z **Modeling design of university laboratory based on virtual reality technology** [12259-174]

12259 50 **Fluid simulation of heat pump cold storage system** [12259-27]

12259 51 **A method of classification-based Spark job performance modeling** [12259-220]

12259 52 **The construction of the evaluation model of blended learning based on AHP** [12259-126]

12259 53 **Forest carbon sequestration modelling and management decision based on multiple factors** [12259-165]

12259 54 **The force analysis for large-span overhanging the SRC beam sections based on machine learning** [12259-104]

12259 55 **Higher education evaluation model based on AHP algorithm** [12259-22]

12259 56 **Optimal trade strategy based on RNN-LSTM deep learning method** [12259-117]

12259 57 **Water resource allocation based on optimal programming** [12259-31]

12259 58 **Research on the training of decision-making quantitative ability of decision-making assistants based on AHP method: take X's car purchase decision as an example** [12259-7]

12259 59 **A safe driving speed prediction method for the Hong Kong-Zhuhai-Macao bridge based on genetic algorithm and BP neural network** [12259-34]

12259 5A **Stock price prediction model based on BP neural network for feature selection** [12259-30]

12259 5B **Inversion analysis of chlorophyll a concentration in Wuliangsuhai based on GA-BP neural network** [12259-63]

12259 5C **Analysis of hurricane activity and global warming based on time prediction model** [12259-279]

12259 5D **Global suicide rates insight and prediction** [12259-246]

12259 5E **Study on the influence of indoor particulate matter based on orthogonal design in heat pump system** [12259-42]

12259 5F **The spread of SEIR infectious diseases based on the role of awareness** [12259-35]

12259 5G **Attendance data based on BP neural network model** [12259-248]

12259 5H **Adversarial net and its variants** [12259-177]

12259 5I **Face synthesis with generative adversarial networks** [12259-185]

12259 5J **Visibility detection of single image in foggy days based on Fourier transform and convolutional neural network** [12259-55]

12259 5K **Application of improved ant colony algorithm in mobile robot path planning** [12259-21]

12259 5L **Key technologies of cloud-edge intelligent coordination in twin basin** [12259-234]

12259 5M **Deep learning for image super-resolution and its application in urban security** [12259-199]

12259 5N **Improved NSGA-II algorithm for solving multimodal multi-object path planning problem** [12259-164]

12259 5O **Ant colony optimization algorithm and its application** [12259-265]

12259 5P **Predicting the salary in data science through BP neural network** [12259-80]

12259 5Q **Bidirectional path planning based on improved genetic algorithm** [12259-56]

12259 5R **Research on fixing the best parameter to image denoising by proximity algorithms** [12259-233]

12259 5S **The optimization algorithms and evaluation methods of intersection traffic organization** [12259-235]

12259 5T **Executable modeling method based on the ROAD-CPN business architecture** [12259-217]

12259 5U **Particle swarm optimization algorithm-based spatial reflective panel adjustment model** [12259-145]

12259 5V **The application and analysis of stock forecasting methods based on support vector machine and deep learning** [12259-168]

12259 5W **ARIMA and SVM forecasting in the US paper waste** [12259-238]

12259 5X **Dynamics of a two DOF self-excited SD oscillator with dry friction** [12259-152]

12259 5Y **Histopathological cancer detection: a comparison study of different convolutional neural networks** [12259-215]

12259 5Z **Generation of high-quality image using generative adversarial network** [12259-247]

12259 60 **Decision tree model in supervised learning** [12259-228]

12259 61 **Trajectory tracking of Asian giant hornets based on SVM and BA-SVM algorithm** [12259-48]

12259 62 **Research on the evaluation system of agricultural product cold chain logistics based on analytic hierarchy process (AHP)** [12259-258]

12259 63 **Research on lightweight design of metal structure based on ANSYS** [12259-277]

12259 64 **Application and research of computer modeling technology in smart window home product design** [12259-294]
